

Microbiological Seminars, Winter 2018/2019:

17th of October	Dr. Bernhard Fuchs , MPI Bremen, Germany Host: Cristina Moraru Title: Who, when and why: marine Flavobacteria as specialists for phytoplankton degradation
14th of November	Dr. Karin Holmfeldt , Linnaeus University, Sweden, Host: Cristina Moraru, Title: Who is killing your bug - Viral stories from aquatic environments
28th of November	Prof. Dr. Georg Pohnert , Friedrich-Schiller-Universität, Germany Host: Meinhard Simon Title: "The chemical landscape in the plankton - from microbial interactions to the global sulfur cycle"
12th of December	Julian Moennichs , University of Bremen, Germany Host: Meinhard Simon Title: A case study to describe the putative associated bacterial core community on a marine diatom
9th of January	Prof. Dr. Alexander Probst , University of Duisburg-Essen , Germany Host: Cristina Moraru Title: Microbial pirates in the terrestrial subsurface
23rd of January	Dr. Jan Tebben , University of Bremen and Alfred Wegener Institute, Germany Host: Thorsten Brinkhoff Title: Siderophore-Based Iron Acquisition: From 'privatized' ligands to public good.

All seminars start at 17:15, in room W15-1-146.
